Exercise: WEB INTERFACE DESIGN

A Web Platform for an Ecotourism and Green Routes Agency

Date: 10/11/2026
Module: Web Interface Design (2nd Year DAW)

Instructions

- The exercise consists of **5 questions**, each worth **0.8 points**.
- The use of the official **Bootstrap documentation** is allowed (e.g., the official guide or getbootstrap.com).
- If images are required, they must be stored in the**"./images/"** directory.
- Each section will be assessed according to its similarity to the specifications and reference screenshots.
- **Submission:** The deliverable may be a compressed file named *Name_Surname_Practical_Date_DIW.zip* containing everything necessary to display the webpage locally after extraction.

Practical Exercise Statement (HTML + Bootstrap)

Build a complete webpage structured into sections containing the following elements:

---

1. Fixed Top Navigation Bar (0.8 points)

- The page must include a responsive Bootstrap **navbar** fixed to the top of the page (**fixed-top**) using a light or corporate color scheme.
- It must include:
    - A logo or brand name with the text: **EcoRoutes [Your Name and Surname]**.
    - Navigation links directing users to the different sections of the page: **Home, Destinations, Experiences, and Contact**.
    - A search form aligned to the right with a text field (placeholder="Search destination…") and a styled submit button.

---

2. "Home" Section with a Welcome Layout (0.8 points)

- Regardless of the user's location on the page, clicking the **"Home"** navigation link must return to this initial section.
- The section must contain a prominent welcome block (*Jumbotron* or padded container) with the following content:
    - Main title (H1): **Discover Ecotourism in Castile and León**.
    - Subtitle (H3): **Sustainable Tourism, Nature, and Local Adventure**.
    - Descriptive paragraph:

This website is a sample platform developed with HTML5, CSS3, and Bootstrap 5 to promote environmental conservation.

- Two plain text links or buttons:

Featured Routes | *Green Guide*

- Below this block, add a row with **3 cards (col-md-4)** containing the following titles and descriptions:

1. Guided Hiking

Walking routes designed by local experts to discover the flora, fauna, and history of protected natural areas.

2. Responsible Tourism

We minimize environmental impact by promoting local products and respect for rural environments.

3. Adventure and Sustainability

Outdoor activities combined with environmental awareness workshops and nature photography.

---

3. "Destinations" Section and Features (Pay Attention to Columns) (0.8 points)

- Create a section titled **"Our Main Destinations"** with the subtitle:

Connect with nature in its purest form.

- Add a detailed introductory paragraph discussing the importance of planning journeys in ways that reduce carbon footprints while enjoying the region's Natural Parks.

- Organize a visual list in a column grid (col-md-4 col-sm-6) containing **6 key features or values** of the routes:
    1. Biodiversity
    2. Sustainability
    3. Certified Guides
    4. Small Groups
    5. Active Safety
    6. Zero Kilometre Food and Products

---

4. Interactive Image Carousel (0.8 points)

- Insert a centered Bootstrap **Carousel** component on the page to showcase photo galleries of technologies or tourist landscapes.
- The carousel must include at least **2 slides** (carousel-item) featuring background images or multimedia elements stored in the resources folder.
- Include functional bottom indicators and side controls (**Previous** / **Next**).

---

5. Contact Form and Footer (0.8 points)

- Design a contact form inside a centered container with shadows and visible borders, including:
    - Title: **Do You Have Any Questions? Contact Us**.
    - A text field for **Name**.
    - An email field for **Email Address**.
    - A **textarea** for the **Message**.
    - A full-width submit button with the text**"Send Inquiry"** and a green ecological-themed style using the **btn-success** class.
- Finally, add an institutional **Footer** at the bottom of the page with the following text:

DAW 2026 | Copyright EcoRoutes - IES RIBERA DE CASTILLA.

Assessment Rubric for the Teacher

- **Excellent (0.8 points):** The section fully meets the structural requirements, Bootstrap classes, and requested texts, and works smoothly and responsively.
- **Very Good (0.6 points):** The section is correct but contains between 1 and 3 minor visual or Bootstrap class issues.
- **Pass (0.4 points):** The section is close to the requirements but contains between 3 and 6 incorrect or missing elements.
- **Fail (0 points):** The section is not implemented or differs completely from the requirements.
